Skills

- Technical Skills:PYTHON,DJANGO,MYSQL,HTML,CSS,JAVASCRIPT
- Behavioral Skills: Leadership, Team Player

Education

2020-2024 B.TECH in *ECE* from sri indu institute of Eng & Tech with 7.19 CGPA.

2019-2020 12th from Narayana junior college,Hyderabad with 90%marks.

2018 10th from Santhi nikethan school,Hyderabad, with 9.3 CGPA.

TRAININGS OR CERTIFICATIONS

- Python
- Python Full stack

Projects

BANK MANAGEMENT SYSTEM USING PYTHON:

- I developed a financial transaction system using Python, Django, and MySQL. The web application allows users to conduct transactions and check their balances securely. I ensured robust backend development and efficient database management to handle transactions seamlessly.I implemented security measures to protect user data and prevent unauthorized access.My focus was on creating a secure,efficient ,and user friendly financial platform.

CROP DETECTION USING PYTHON:

- I developed a crop recommendation system using Python that analyzes various factors like soil type, weather conditions, and historical crop data. By leveraging machine learning algorithms, it provides farmers with suggestions for the best crops to cultivate in their specific conditions. This helps optimize agricultural yield and resource utilization.

Interests and Hobbies

- Cricket
- Playing chess
